National Heat Pump Rebate: receipt checklist

Based on the official rules on Canada.ca, published 1 November 2026. Rules may change. Prepared by LoonHVAC (independent, not government).

The receipt must show

- ☐ Name and address of the person who will apply (the homeowner)
- ☐ Name of the company installing the heat pump
- ☐ Make, model and AHRI number(s) of the installed equipment
- ☐ Number of heat pumps installed
- ☐ Total project cost, including directly related work (ductwork, electrical upgrades)

Homeowner

- ☐ Installed on or after 1 November 2026
- ☐ AHRI number checked on NRCan's National Heat Pump Rebate product list; brand and models match
- ☐ Bought from and installed by an HVAC contractor
- ☐ I own the home and live in Canada (it needn't be my main home)
- ☐ No previous federal heat pump funding at this address
- ☐ No one else in my household is claiming (one rebate per household)
- ☐ Receipts submitted within 6 months; copies kept
- ☐ 2025 tax return lines 23600 and 43500 (and spouse's or partner's) ready if applying for the higher amount

Contractor

- ☐ Quote and invoice list the AHRI number, brand, and outdoor and indoor/furnace model numbers

- ☐ Installed equipment matches the quote exactly (re-check after any substitution)
- ☐ System sized to heat the whole home
- ☐ Invoice made out to the homeowner who will apply, at the install address
- ☐ Number of heat pumps and total project cost stated
